- Available in 20 of the most popular colors
- Inventory and job site flexibility
- Use on vertical as well as horizontal surfaces
- Excellent color retention
- Mixing on site provides a flexible cost effective color delivery method.

COLOR LOADING INSTRUCTIONS

1. Choose color. (See our Concrete Coloring System brochure)
2. Choose correct tint base according to color selected
3. Add correct load amount of color tint A or tint B to the correct tint base material.

Important Note: Loading amounts are based on five gallons of finished tint base material. Mixing of smaller amounts is not recommended.

Important Note: Color packs can be reused but must be tightly sealed and stored in climate controlled area.

This chart is intended to be used when tinting StarSeal Color Cure, StarSeal Color Seal and StarSeal Color Stain only. This chart is to be used for the proper selection of color, finished tint base material to be tinted and load amount for specific color selected. The specific product data sheet: Color Stain, Color Seal and Color Cure, should be reviewed prior to tinting or using these materials. StarSeal Color Tint is sold in 24oz bottles, packaged 2 per case. Proper application of Vexcon material is the responsibility of the installer or user. Telephone consultation and/or field visits by Vexcon personnel are for the sole purpose of making technical recommendations only, and not for providing quality control or supervision on location.
