CERTI-VEX[®] GRIP SLIP – RESISTANT ADDITIVE

DESCRIPTION

CERTI-VEX GRIP SLIP-RESISTANT ADDITIVE is a particle size controlled polymer for addition to Vexcon coatings and stains for slip resistance, fine texturing and gloss reduction. Certi-Vex Grip has low oil absorption and high solvent resistance and will stir easily into all coatings with little effect on the coating's viscosity. Since Certi-Vex Grip has low density, it will stay suspended in thin materials.

BENEFITS

- Good compatibility with minimal viscosity effects
- Can be added to water or solvent based system
- Recommended for paints, stains, sealers and epoxies
- Round particles allow easy cleaning of the surface
- Round shaped particles provide a smoother feel under foot
- Slip resistance
- Easy addition to paints and stains
- Good chemical and abrasion resistance

APPLICATION

- a. Slowly add the 16 oz container to 1-5 gal. pail of coating or 4 gal. unit of two component Powercoat material.
- b. Material should be added to 1st coat
- c. Adding to 2nd coat is optional depending on density required

SPECIAL NOTES

- Certi-Vex Grip will increase the coefficient of friction on the surface of paint. The coating that this is added to will have a texture and surface changes from a smooth coating
- Not for use with wood stains or wood sealers
- Do not add to penetrating water repellents
- For use by professional applicators only
- Keep out of reach of children

VITAL STATISTICS

- Controlled particle size slip resistant additive.

PACKAGING

- Certi-Vex Grip is packaged 16 oz. for 1 unit of two component mixtures by weight in a container to be added to the 5 gal. pail

HEALTH AND SAFETY

- Certi-Vex Grip is not hazardous and does not contain silica, but should be treated as a nuisance dust while incorporating it into its intended coating – use dust mask.
- It is recommended that when mixing into unfamiliar coatings, a small test batch and application be made.
- Use only with adequate ventilation.
- Use of gloves, goggles and other protective clothing is advised when using this product.
- If swallowed, do not induce vomiting.

Vexcon MSDS # Op115 is an integral part of the safety and application of our product. A short synopsis is provided in this product data sheet. Before using this Vexcon product it is advisable to obtain a copy of the MSDS, #Op115, from your distributor or by contacting Vexcon Chemicals.

THIS PRODUCT INCLUDES

<u>Material or Component</u>	<u>Cas No.</u>	<u>Hazardous Data</u>	<u>UN#</u>
Polypropylene Homopolymer	9003-07-0	15mg/m ³ (Dust)	
Common Name: Slip resistant additive			
D.O.T. Shipping Name: NON HAZARDOUS
