CERTI-SHINE FIXATIVE

HIGHLY EFFECTIVE STAIN RINSE FOR POLISHED CONCRETE

DESCRIPTION

CERTI-SHINE FIXATIVE is the only product in the market today that helps remove unwanted excess or residual unreacted silicate from polished concrete, one of the main causes of polished concrete food staining. Certi-Shine Fixative is the crucial middle step in providing true stain resistance for polished concrete. Use when installing a **Certi-Shine Clear FSR** or **Certi-Shine MicroStain FSR** floor.

Using this product will increase the chemical resistance of polished concrete. See TN 30 Chemical Resistance Chart.

Certi-Shine Fixative is designed for use on polished concrete surfaces previously densified with **Certi-Shine Clear**.

BENEFITS

- Scavenges and removes hard to rinse excess silicate
- Increases polished concrete's resistance against organic acids and food stains
- Zero VOC

SURFACE PREPARATION

After the concrete has been densified to rejection with Certi-Shine Clear and high speed burnished, it is ready for the Certi-Shine Fixative rinsing process.

APPLICATION

- Certi-Shine Fixative should not be diluted or altered
- Apply with low pressure (20-50 PSI) pump-up sprayer at 500 sq. ft/gallon.
- Follow immediately/close behind with a walk behind scrubber or mop and wet/dry vacuum using plenty of water to rinse the surface completely.
- Do not allow Certi-Shine Fixative to dry prior to rinsing
- Always rinse the surface more than once
- Once the concrete is completely rinsed, polishing can begin immediately, if desired.

SPECIAL NOTES

- The product should be stored in sealed containers and kept away from extreme heat.
- Shelf Life: If properly stored in its original sealed container, one year from date of manufacture. Rotate your stock.
- For use by certified Cert-Shine installers only.

SPECIFICATIONS/COMPLIANCE

- VOC Content: 0 gr./liter or 0 #/gal
LEED NC category/points:
Certi-Shine concrete floors can potentially contribute 14 or more LEED points. For more information visit vexcon.com/green.
- CSI Reference: 03 35 00, 03 36 00

PACKAGING

Certi-Shine Fixative is available in 5-gallon pails and 55-gallon drums. Contact Vexcon directly to discuss your customized packaging requirements.

HEALTH AND SAFETY

- CAUTION: May irritate mucous membranes
- Long term overexposure may cause damage to skin and/or respiratory tract.
- Use only with adequate ventilation
- Use of gloves, goggles and other protective clothing is advised when using this product.
- If swallowed, do not induce vomiting.

Vexcon MSDS is an integral part of the safety and application of our product. A short synopsis is provided in this product data sheet. Before using this Vexcon product it is advisable to obtain a copy of the MSDS from your distributor or by contacting Vexcon Chemicals.
