## Adhesives for MoistureBloc

The following adhesives have been tested by Vexcon with Vexcon MoistureBloc Vapor Reduction System. The tack time of each adhesive should be determined prior to applying the floor covering material; this can vary as much as 100% vs application of the adhesive's typical recommendations for a non absorbent surface.

\* Reactive adhesives require use of MoistureBloc Universal, MoistureBloc Step 3 or MoistureBloc MX. See MoistureBloc data sheet for details.

\* Reactive adhesives require use of MoistureBloc Universal or MoistureBloc Step 3. See MoistureBloc data sheet for details.

**Notes:**

1. Solvent Based adhesives should be used with MoistureBloc MX System.
2. If your adhesive is not on this list, please contact Vexcon for assistance.
