

# PROJECT PROFILE

## Jame's Eerdman Pool Deck

### PROJECT BACKGROUND

Homeowner, James Eerdman, bought this 9,000 square foot estate in Jenison, Michigan, as a foreclosure property back in 2002. After intense renovations and remodeling, the home is now worth over two million dollars and was featured in the Spring Parade of Home's in Grand Rapids, Michigan. The stunning vanishing edge pool (see picture) was the perfect complement to this impressive home.

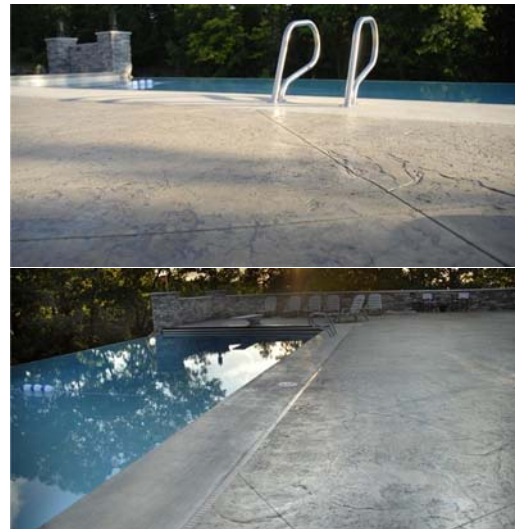

### STRATEGIES

"The most important part of a job is to have a good sealer," says Isaac Jonker the owner/president of Nobel Concrete in Jenison, Mich. The challenge for this job was using a sealer that was long-lasting, would not yellow, and could be applied in just a day or two. As Jonker told Concrete Network.com, "when his company installed jobs, they usually had to wait until the concrete cured before they could apply the sealer. Coming back to a job two to three weeks after it's completed and hasn't yet been sealed can leave the door open to a lot of potential problems."

### RESULTS

Vexcon's Certi-Vex AC-1315 was the sealer of choice for the pool deck because it is non-yellowing, fast-drying, and breathable. With Vexcon's AC-1315, there was little wait time before the sealer was applied. Our product is a breathable sealer and curing compound that allowed Mr. Jonker to apply the sealer early in the project saving time and reducing the likelihood of potential problems occurring. In addition to its fast drying, Mr. Jonker chose AC-1315 because it "really pulls out the color, such as integral and release, and enhances it." With Vexcon's AC-1315, the pool deck will be both protected and beautiful at the same time.

<b>Project Type:</b>	Stamped Concrete Pool Deck
<b>Location:</b>	Jenison, Michigan
<b>Owner:</b>	James Eerdman
<b>Contractor:</b>	Noble Concrete, Isaac Jonker
<b>Distributor</b>	Decorative Concrete Resources
<b>Total Square Footage:</b>	2,500
<b>Project Completion Date:</b>	2012
<b>Product Used:</b>	Certi-Vex AC-1315

### ABOUT VEXCON

Founded in 1974, Vexcon Chemicals core business is the manufacture, distribution and sale of construction chemical products.

Vexcon Chemicals is an industry leader providing innovative product solutions through the development of advanced chemical technologies designed to meet today's construction demands. With our unique capability as a vertically integrated specialty chemical manufacturer we produce as starting materials water and solvent based epoxy, urethane, hydrocarbon, acrylic and silicone products. These technologies allow us to develop cost effective products that are designed to exceed market demands for consist high performing materials. We also have the ability to manufacture customized products developed to meet specific customer demands.

Vexcon produces construction materials designed to build, repair, enhance, protect, and maintain a wide variety of concrete and masonry structures.

Our products span numerous markets and product categories and are commonly used on transportation, commercial, industrial, distribution, institutional and residential projects both nationally and globally.
